

Carrier Air Purifiers

The Carrier air purifier is the solution for those looking for a clean, filtered space. It is equipped with a 3 layer filter system, which results in the best air quality for every room and is extremely quiet in operation. Clean, filtered air has never been so important. They are compact and lightweight in design, making the air purifier easy to move. The range consists of three models to suit room sizes: 14-25m², 24-48m² and 42-73m². The air purifiers are also equipped with a UV lamp with a negative ion function for effective action against viruses and bacteria. (99.9% of bacteria is filtered from the air)

Intelligent automatic purification is achieved using smart detection technology, which scans the room in real time and automatically eliminates the three main indoor air risks: particulates, harmful gases and indoor allergens. Easily switch between 4 modes: automatic mode, sleep mode, soft mode and turbo mode. What makes the air purifier effective is the 3-layer filter system, consisting of the washable nylon pre-filter, the H11 HEPA filter, and a carbon filter. The pre-filter catches dust and hair, then the activated carbon filter removes harmful gases and unpleasant odours. Finally, the "NanoProtect" HEPA filter captures ultra-fine particles as small as 0.003 microns.

Thanks to the display on the front panel of the purifier it is possible to know the quality of the air, it is measured at four different levels. The colour indicator shows the air quality:

Blue - Excellent, Green - Good, Purple - Normal and Red - Poor.

Pre Filter used to removes Hair, Dust & Skin

HEPA filter widely used for medical use, to strongly absorb particles PM2.5~0.3, Pollen & Allergen's

Activated Carbon Filter, 5~10 times powerful than traditional carbon filter, removes Smoke & Pollution

Finally the air purifiers, being equipped with a internal UV lamps and a negative ion function, give effective action against viruses and bacteria, similar to UV sterilization methods used in the medical industry.

Model	CAFN026LC2	CAFN036LC2	CAFN051LC2
CADR (Clean Air Delivery Rate) - Room area	210m ³ /h - 14-25m ²	410m ³ /h - 24-48m ²	610m ³ /h - 42-73m ²
Voltage	220V / 50Hz		
Noise (Low/Medium/High) db(A)	25 / 32 / 42	25 / 35 / 54	25 / 35 / 58
Air Filter Configuration	Pre-filter / H11 HEPA / Activated carbon filter		
Filter bacteria level	≥98%	≥98%	≥98%
Dimensions	L346*W173*H526 mm	L410*W210*H628 mm	L460*W230*H710 mm
Retail Price (No Discount)	£180.00	£220.00	£270.00
