

Cleaning

Tablets

Pumps

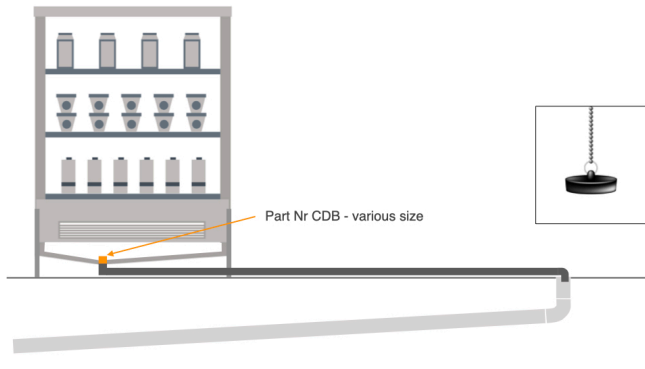

Ancillaries

Gel-clear tablets can be installed anytime, when used during a deep clean, we recommend cleaning with Eco-clear coil & pan disinfectant to clean the coil, pan, and drains. Eco-clear coats all surfaces in the 'Gel-clear' long lasting, anti bacterial coating, preventing biofilm, and corrosion to the coil & pan, breaking down any residual biofilms in the drains..

Block the drain outlet before cleaning starts.

1

Spray coil and pan ensuring all areas are covered, spray into the coil fins.

2

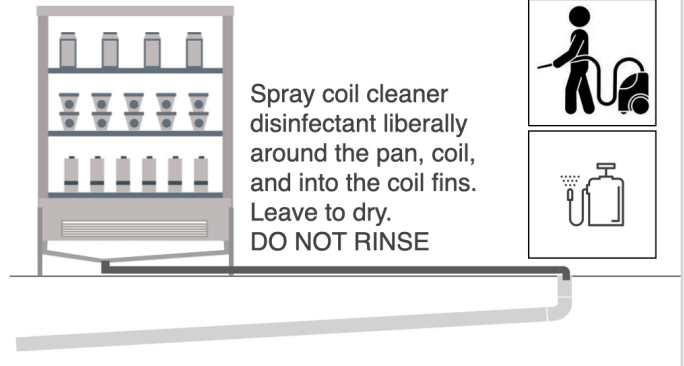

Wash the coil in the usual way, cleaning the coil and pan, use vac to remove all dirty water.

3

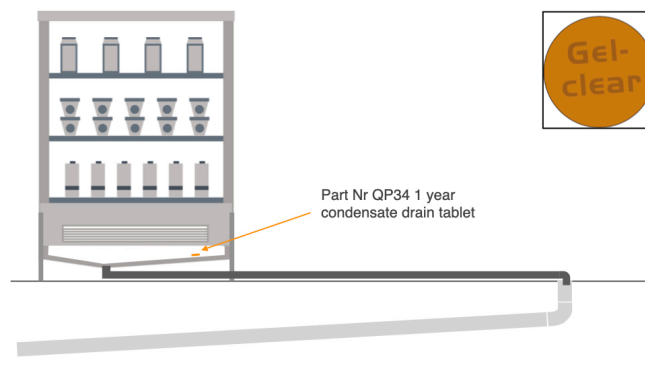

use an aqua vac to remove any food debris that may have gone down the drains.

4

Place 1 tablet in the pan, away from the drain outlet, near the coil.

5

The tablet **MUST** come into contact with water.
