# Gel-clear

## Technical data sheet TGS18

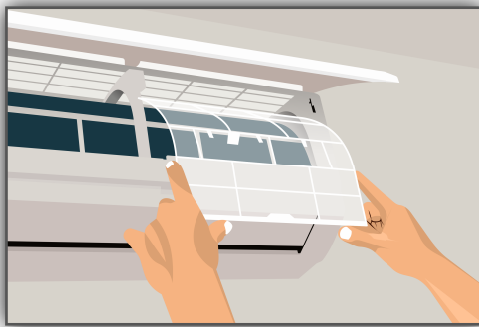

### SPECIAL FEATURES

- 6 months protection
- Improves IAQ
- Prevents & controls biofilms
- Kills both Airborne, and waterborne bacteria
- Prevents odour - Long lasting pleasant fresh fragrance
- Pump safe
- Biodegradeable

**Gel-clear Green prevents blocked condensate drains and keeps the air smelling fresh using natural Tea Tree Oil.**

Name	Gel-clear Green
Product Code	TGS18
Packing Qty	Single unit pouch
Appearance	Flexible soft green strip

### DIRECTIONS

For HVAC professional use only.

Place the Gel-clear Green flexible strip in the condensate drain tray away from the drain opening. When the drain tray begins to collect condensate water, the strip will begin to slowly dissolve and provide treatment. Gel-clear Green Strips were designed to fit into the tight fit drain trays of Mini Split air conditioning units and other tight fit applications. Place the strip against the aluminium fins of the evaporator coil and on the inside of the inner edge of the drain pan, either horizontally or vertically. As the evaporator fins begin to sweat with condensate, the Strip will slowly dissolve into the drain pan, preventing biofilm, odours, and drain blockage.

### USE

Gel-clear Green strips use environmentally friendly Tea Tree Oil to prevent biofilms, odours, and blocked condensate drains in wall mount units. Gel-clear Green will dissolve in the condensate water, providing preventative treatment for 6 months plus. Gel-clear Green does not contain any harsh chemicals or biocides, making them safer for the user and the environment. Nature's biocide, Tea Tree Oil, kills both airborne, and waterborne bacteria in the unit, improving air quality, and efficiency. Safe to use with all types of condensate pumps, Gel-clear Green strips are 100% water soluble, leaving no residue to damage the pump.

User Guide  
QR Code

Use in all A/C wall mounts and mini splits.

### DANGER

This product does not contain substances subject to authorisation (Regulation (EC) No. 1907/2006 (REACH), Annex XIV). This product does not contain substances subject to restriction (Regulation (EC) No. 1907/2006 (REACH), Annex XVII) chlorides H302 - Harmful if swallowed, H312 - Harmful in contact with skin, H314 - Causes severe skin burns and eye damage, Precautionary Statements - EU (G28, 1272/2008) P280 - Wear protective gloves/protective clothing/eye protection/face protection, P321 - Specific treatment (see supplemental first aid instructions on this label) P260 - Do not breathe dust/fume/gas/mist/vapours/spray, P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower, P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses that are easy to remove. Continue rinsing, P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.
