Cool Solutions
Distribution Ltd
Ancillary Products

Cool Solutions Distribution Ltd

Cool Solutions Distribution Ltd was established in April 2005 and is now one of the largest suppliers of Toshiba Air Conditioning equipment in the UK. We also supply Carrier and CIAT air conditioning, heating and ventilation products. We are based in Leeds, West Yorkshire, but supply customers throughout the country and indeed have supplied equipment for some of the country's most prestigious engineering projects.

The Cool Solutions team are highly motivated and dedicated to providing the best possible customer service. We believe supplying a quality product and supporting our customers throughout the whole project is the best way to guarantee end-user satisfaction. This philosophy has been the driving force behind the company and has led to our continued success in what is a highly competitive market.

Our in-house project and engineering team work with installers, consultants and end users to assist in designing and supplying some of the most technologically advanced air conditioning systems available in the world today. Whether these systems be single split type air conditioning units or VRF multi systems supplying simultaneous heating and cooling to numerous indoor units, our aim is to offer the most comfortable, cost effective and energy efficient solution.

Given that energy costs have dramatically increased in recent years and seem set to continue rising, there has never been a more pressing time for consumers both large and small to review their energy needs. Heat Pump technology has long been known to offer an energy efficient alternative to more traditional forms of heating, however now given the huge leap forward in inverter technology the potential energy savings can be huge. Cool Solutions are able to offer systems which are at the forefront of energy conservation and indeed can qualify for considerable Government incentives.

Our technical team are always happy to offer advice, whether this is on existing equipment, new applications or replacement equipment.

Building on what we believe to be an enviable reputation for excellent services and technical back-up in our Air Conditioning Distribution Business, Cool Solutions Distribution Ltd has decided to launch our first Ancillaries Shop, located at our warehouse in Leeds.

Having listened to our customers over the past few years, it has become increasingly obvious that there was a gap in the market for a specialist "One Stop Shop", where engineers can not only receive top class design and technical assistance, on the selection of their Toshiba kit (With its unique 7 Year Enhanced Warranty), Carrier and CIAT equipment, they can also now purchase all their ancillary products to complete the job.

As has always been our company's ethos, we are not looking to take over the world, just making sure that whatever we supply as a distributor, we do it to the best of our abilities, with our focus always being on our customers' needs. Why not have a look at the ranges we offer on the accessories section on the menu bar above.

All prices in this book are subject to an additional Trade Discount besides Gas & Tools.

Please contact us for more information.

Please note that all prices you see in this book are subject to price fluctuations and may slightly vary from the listed costing.

Our opening hours are Monday to Friday, 7:30 am to 17:00 pm.

StrutFoot10	10 Unit System 5000mm x 1300mm	£1027.38
StrutFoot12	12 Unit System 6000mm x 1300mm	£1382.21

Alternate Systems On Request

StrutFoot Base System **StrutFoot Plus System**

- Channel framework provides strength & convenience for cable management installation
- Cross-compatibility with all channel type brackets
- Fast & economical systems for mounting M&E services, Air Conditioning & Refrigeration on flat roofs
- Easy to install for individual products or complete installations • No penetration of waterproof roof membrane
- Standard & bespoke configurations
- Anti-Vibration pads pre attached to feet • Feet & blocks available separately

Flexi Foot Condensing Unit Supports

FF-250-S	Flexi Foot 250mm Strut 160Kg (Each)	£9.70
FF-400-S	Flexi Foot 400mm Strut 240Kg (Each)	£15.01
FF-600-S	Flexi Foot 600mm Strut 400Kg (Each)	£21.31
FF-1000-S	Flexi Foot 1000mm Strut 645Kg (Each)	£35.77

The SFR range of recycled rubber feet has been designed to carry loads on non-penetrable roofs; which include pipe work, cable management and small units.

We offer the SFR feet with Aluminium channel to ensure a high corrosion resistance.

The H Frame Kit is a quick and easy solution to support all cable management, ducting and pipe work.

H Frames are supplied in box form.

They are designed to use channel which is not included. As a module, our manufacturing department can fabricate the H Frames in house to speed up the process of installation on site.

Flexi Foot H-Frame

SF3305	H-Frame 305mm Feet	£27.51
SF3200	200 x 200 Plastic Foot	£7.51
SF3105	305 x 305 Plastic Foot	£13.40
SF3505	500 x 500 Plastic Foot	£34.83

Please contact us for any bespoke framework you may require.

StrutFoot Bespoke Access

With our in house design and manufacturing, StrutFoot can supply and install bespoke access to meet the customers specification.

The framework on all of our access is HDG ensuring it is suitable for roof applications. All of the leg assemblies supplied are adjustable and supplied with our R305 or R200 plastic feet.

Prices POA.

MaxiPro - Conex Banninger

MaxiPro benefits from a 3-point press – one each side of the bead, and one press compressing the O-ring. This provides a permanent and secure joint. Lead-in edge design aids installation and helps protect the O-ring from damage or displacement. MaxiPro fittings for air-conditioning and refrigeration applications are identified with pink marks on the fittings. It is quick, simple & easy to use, backed by experienced technical support and customer service teams. It is reliable, repeatable, permanent and gives tamper-proof connections every time. MaxiPro has a 5 year product Guarantee.

Cool Solutions Distribution Ltd

VPX7UK

10 CFM Vacuum Pump

- 10 CFM / 280 l/min flow rate with 15 microns ultimate vacuum level
- ¾ HP DC motor
- Weighs 11 kg. - Patented lightest weight
- RunQuick® Oil Change System offers on-the-fly oil changes in seconds
- Port Sizes: (1) 1/4", (2) 3/8", (1) 1/2"
- VPX7 - available in 230v and 110v models • A2L Certified

MR45UK

Digital Recovery Machine

- DC Motor. 1 HP (variable smart speed)
- Starts and runs easily with lower voltage
- Minimizes liquid slugging and maximizes vapor recovery
- Presence of liquid 2000RPM
- Presence of vapour 3000RPM
- Easy access ports
- Water resistant to withstand direct rain
- R32 Ready
- Available in 110V and 240V

M480VINT

Wireless SMAN® Refrigerant Manifold 4-port

- Wireless range of 300 meters
- Super rugged construction
- Temperature compensated system tightness test
- Job Link® System enabled
- Data logging
- Water resistant (IP54)

SR47INT

Wireless Refrigerant Scale

- Max load SRS3EC 100 kg | SR47INT 114 kg
- Water resistant
- 200 hour platform battery life
- 300 meter wireless range
- Connect to Job Link® System Mobile App
- Flat top bumpers for larger cylinders

BG44

Service Tool Bag

- Rugged, elevated rack for hand tools
- Padded pockets to protect meters
- Magnetic tray
- Quick carry single strap
- Compact rugged design
